EXPLANATORY NOTE.

This return relates to the first general elections held under the Government of India Act, 1935.

In all provinces except the North-West Frontier Province and Sind there are a number of plural member constituencies with seats reserved for Scheduled Caste candidates. In such constituencies where more than four such candidates presented themselves Primary Elections were held. Only members of the Scheduled Castes voted at these Primary Elections, and four Scheduled Caste candidates might be chosen to contest each reserved seat. At the general election the reserved seat went to the Scheduled Caste candidate (if more than one such candidate stood) receiving the highest number of votes, irrespective of his place in the general poll. In the Detailed Statements constituencies with one or more seats reserved for Scheduled Caste candidates are marked*.

It should be noted that the percentage of votes polled to the total number of voters is not necessarily the same as the percentage of the electorate which voted, since in the case of a constituency returning more than one member each voter was at liberty to poll more than one vote. The number of such constituencies is given after the number of votes polled in the case of each province in the general summary of results.
